BEAUTIFUL WOMEN by MARCEL WANDERS signals the return of a type of furniture that has all but disappeared.

The dressing table consists of a mirror with a richly decorated frame and a glass shelf, a small dresser, in two variations, a storage stool and side table.

The sober dresser features a sunken top and cast brass handles in the shape of an apple and a snake, a reference to the first woman.

The more baroque cabinet features a spherical, massive wooden foot on which a top has been fitted.

The stool and its side table version, with its graphic design and round forms, refer to the 1960s.

The series is a post-modern ensemble intended as a tribute to womankind.

Quote by the designer about Beautiful Women:

"Luxury is to live an exciting passionate life in comfort and commitment, to feel you are special and make a difference while achieving personal growth, to contribute to the greater good and feel you share love".

"Luxury starts where functionality ends and where the true value is personal and so has no price or reason".

Marcel Wanders, Designer

Ken

Dimensions: height=38 cm, diameter of glass top is 40 cm

Materials

- The table top is made of reinforced glass.
- The base is laser cut and powder coated in black. The surface of the powder coating has a light 'orange skin'. The steel of the upright base is 12 mm thick.
- The base is invisibly welded to the bottom and top plate.
- An anodized aluminium part is invisibly UV glued to the glass table top. This aluminium part is invisibly connected with screws to the base.

Colors

- Satin black
- On request other colors (for bigger quantities)

Floor, mounting

Under the base plate 4 rubber devices are glued, which provide a solid protection for many floors.

Still we strongly recommend to check the specifications from your floor and glue other specific protection material under the plate, if required.

Delivery

Ken is delivered in 2 cartons (base + glass top) with an excellent export quality.

For some export destinations, we deliver in a wooden crate.

Maintenance

Base: dust with a soft dry cloth. If required clean with soapy water. Never use any chemical cleaning liquids and / or abrasives.

Glass top: clean with liquids especially made for glass. Be careful with sharp objects.
