

TECA BY ALFREDO HÄBERLI WARDROBE / CHEST OF DRAWERS

Teca is a wardrobe / chest of drawers. It can be composed by a combination of the 3 different modules placed on the base.

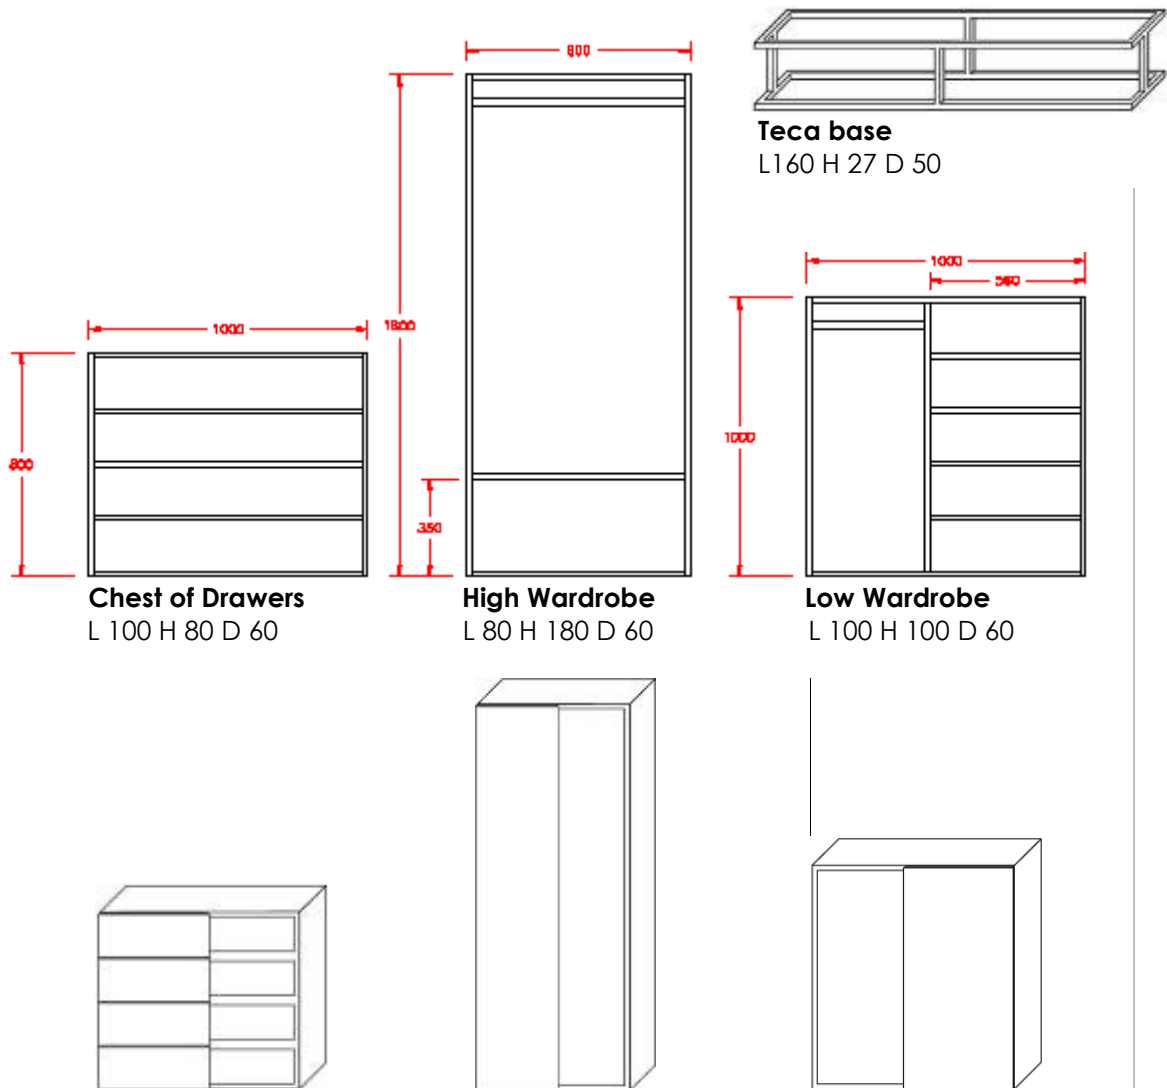

Each corpus is made of lacquered MDF. The base is made of powder coated steel.

The prices are based upon a matt color for corpus + overlaying front parts and a satin or high gloss color of the lower front parts. The concept of overlaying and lower front parts is easier to understand if you take a close look at the images on our website or in our brochure.

The modules can be lacquered in any RAL or NCS color. Alfredo Häberli suggests:

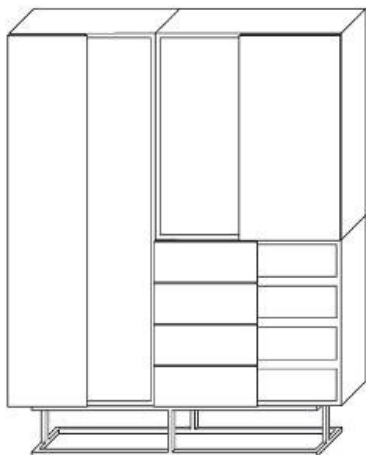

- Corpus + overlaying front parts in Matt Grey White (RAL 9002)
- Lower front parts High Gloss: Pastel Violet RAL 4009 / Reed Green RAL 6013 / Squirrel Grey RAL 7000

The base is powder coated in RAL 9002 (grey white) as standard. Other colors on request.

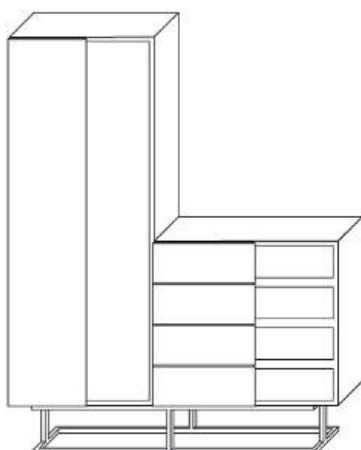

Dimensions are the external sizes. Teca is delivered in fully mounted modules, each one packed on a pallet.

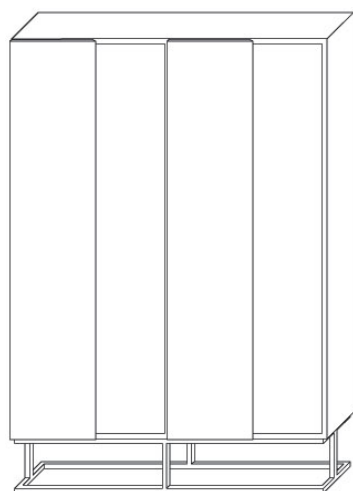

TECA BY ALFREDO HÄBERLI WARDROBE / CHEST OF DRAWERS

L 180 H 207 D 60
Chest of drawers + high wardrobe + low wardrobe
